

Amendment to the Claims

Claim 128. (Newly Added) The system of claim 119 further comprising at least one software routine which consolidates online ordering of deliverables ordered by a customer from different online sellers into a single online invoice or receipt indicating the separate price of each of said deliverables and their cumulative price; and, said system further comprising software routines for verifying identification information pertaining to an ordering customer; and, for culminating a consolidated online order in a conventional online ordering manner and storing a record of data pertaining to the order when the order is confirmed by said ordering customer.
